**Management of Government Property
in the Possession of Contractors**

**FAR SUBPART 45.5,
DEAR SUBPARTS 945.5,
and
917.74**

March 2000

United States Department of Energy
National Energy Technology Laboratory

FOREWARD

This handbook is applicable where the contract incorporates Subpart 45.5 of the Federal Acquisition Regulation (FAR) entitled "Management of Government Property in the Possession of Contractors," the Department of Energy Acquisition Regulation (DEAR) Subpart 945.5, the clause 952.217-70 entitled "Acquisition of Real Property," and DEAR Subpart 917.74. Together, these regulations prescribe the minimum requirements Contractors must meet in establishing and maintaining control over Government property. Where there are discrepancies between the FAR and the DEAR, the FAR shall govern.

In addition to the regulations, included are forms and instructions required by the National Energy Technology Laboratory (NETL) to fulfill the semi-annual, annual, and biennial financial or termination/completion inventory reporting requirements of the contract for Government-owned personal or real property in the possession of the Contractor. It is the responsibility of the Contractor to comply with all the applicable reporting requirements and submit the reports on time. Failure to do so will result in appropriate action being taken by the Contracting Officer.

The DEAR is divided into the same parts, subparts, sections, subsections, and paragraphs as the FAR. However, when the FAR coverage is adequate by itself, there will be no corresponding DEAR part, subpart, etc. Where the DEAR implements the FAR, the implementing part, subpart, etc., of the DEAR will be numbered and captioned the same as the FAR part, subpart, etc., except that the implementation will be preceded with a 9 (nine). For example, the DEAR implementation of FAR 45.505-5 is shown as 945.505-5 and the DEAR implementation of FAR 45.508 is shown as 945.508.

The Department of Energy does not follow the policies and procedures governing the management, control, reporting, and disposal of special test equipment and special tooling contained in FAR Part 45. The sections of the FAR Subpart 45.5 regarding those policies and procedures have not been included in this handbook.

The cognizant Contracting Officer of the Department of Energy, National Energy Technology Laboratory will furnish to the Contractor a copy of this handbook upon award of a new contract. Copies of the forms included with this handbook may be obtained by writing:

U.S. Department of Energy

1. SUBPART 45.5 -- MANAGEMENT OF GOVERNMENT PROPERTY IN THE POSSESSION OF CONTRACTORS

45.500 -- SCOPE OF SUBPART

This subpart prescribes the minimum requirements Contractors must meet in establishing and maintaining control over Government property. It applies to Contractors organized for profit and, except as otherwise noted, to nonprofit organizations. In order for the special requirements in this subpart governing nonprofit organizations to apply, the contract must identify the Contractor as a nonprofit organization. If there is any inconsistency between this subpart and the terms of the contract under which the Government property is provided, the terms of the contract shall govern.

45.501 -- DEFINITIONS

"Accessory item," as used in this subpart, means an item that facilitates or enhances the operation of plant equipment but which is not essential for its operation.

"Agency-peculiar property" (see 45.301).

"Auxiliary item," as used in this subpart, means an item without which the basic unit of plant equipment cannot operate.

"Contractor-acquired property" (see 45.101).

"Custodial records," as used in this subpart, means written memoranda of any kind, such as requisitions, issue hand receipts, tool checks, and stock record books, used to control items issued from tool cribs, tool rooms, and stockrooms.

"Discrepancies incident to shipment," as used in this subpart, means all deficiencies incident to shipment of Government property to or from a Contractor's facility whereby differences exist between the property purported to have been shipped and property actually received. Such deficiencies include loss, damage, destruction, improper status and condition coding, errors in identity or classification, and improper consignment.

"Facilities" (see 45.301).

"Government-furnished property" (see 45.101).

"Government property" (see 45.101).

"Individual item record," as used in this subpart, means a separate card, form, document or specific line(s) of computer data used to account for one item of property.

"Material" (see 45.301).

"Nonprofit organization" (see 45.301).

"Plant equipment" (see 45.101).

"Property administrator," as used in this subpart, means an authorized representative of Contracting Officer assigned to administer the contract requirements and obligations relating to Government property.

"Real property" (see 45.101).

"Salvage," as used in this subpart, means property that because of its worn, damaged, deteriorated, or incomplete condition or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs, but has some value in excess of its scrap value.

"Scrap," as used in this subpart, means personal property that has no value except for its basic material content.

"Special test equipment" (see 45.101).

"Special tooling" (see 45.101).

"Stock record," as used in this subpart, means a perpetual inventory record which shows by nomenclature the quantities of each item received and issued and the balance on hand.

"Summary Record" as used in this subpart, means a separate card, form, document or specific line(s) of computer data used to account for multiple quantities of a line item of special tooling, special test equipment, or plant equipment costing less than \$5,000 per unit.

"Utility distribution system," as used in this subpart, includes distribution and transmission lines, substations, or installed equipment forming an integral part of the system by which gas, water, steam, electricity, sewerage, or other utility services are transmitted between the outside building or structure in which the services are used and the point of origin, disposal, or connection with some other system. It does not include communication services.

"Work-in-process," as used in this subpart, means material that has been released to manufacturing, engineering, design or other services under the contract and includes undelivered manufactured parts, assemblies, and products, either complete or incomplete.

45.502 -- CONTRACTOR RESPONSIBILITY

- (a) The Contractor is directly responsible and accountable for all Government property in accordance with the requirements of the contract. This includes Government property in the possession or control of a subcontractor. The Contractor shall establish and maintain a system in accordance with this subpart to control, protect, preserve, and maintain all Government property. This property control system shall be in writing unless the property administrator determines that maintaining a written system is unnecessary. The system shall be reviewed and, if satisfactory, approved in writing by the property administrator.
- (b) The Contractor shall maintain and make available the records required by this subpart and account for all Government property until relieved of that responsibility. The Contractor shall furnish all necessary data to substantiate any request for relief from responsibility.
- (c)
 - (1) The Contractor shall be responsible for the control of Government property under this Subpart 45.5 upon--
 - (i) Delivery of Government-furnished property into its custody or control;
 - (ii) Delivery, when property is purchased by the Contractor and the contract calls for reimbursement by the Government (this requirement does not alter or modify contractual requirements relating to passage of title);
 - (iii) Approval of its claim for reimbursement by the Government or upon issuance for use in contract performance, whichever is earlier, of property withdrawn from Contractor-owned stores and charged directly to the contract; or
 - (iv) Acceptance of title by the Government when title is acquired pursuant to specific contract clauses or as a result of change orders or contract termination.
 - (2) Property to which the Government has acquired a lien or title solely as a result of advance, progress, or partial payments is not subject to the requirements of this subpart.
- (d) The Contractor shall require subcontractors provided Government property under the prime contract to comply with the requirements of this subpart. Procedures for assuring subcontractor compliance shall be included in the Contractor's property control system. Where the property administrator assigned to the contract has requested supporting property administration from another contract administration

office, the Contractor may accept the system approval of the supporting property administrator instead of performing duplicating actions to assure the subcontractor's compliance.

- (e) If the property administrator finds any portion of the Contractor's property control system to be inadequate, the Contractor must take any necessary corrective action before the system can be approved. If the Contractor and property administrator cannot agree regarding the adequacy of control and corrective action, the matter shall be referred to the Contracting Officer.
- (f) When Government property (excluding misdirected shipments, see 45.505-12) is disclosed to be in the possession or control of the Contractor but not provided under any contract, the Contractor shall promptly (1) record such property according to the established property control procedure and (2) furnish to the property administrator all known circumstances and data pertaining to its receipt and a statement as to whether there is a need for its retention.
- (g) The Contractor shall promptly report all Government property in excess of the amounts needed to complete full performance under contracts providing it or authorizing its use.
- (h) When unrecorded Government property is found, both the cause of the discrepancy and actions taken or needed to prevent recurrence shall be determined and reported to the property administrator.

45.502-1 -- RECEIPTS FOR GOVERNMENT PROPERTY

The Contractor shall furnish written receipts for all or specified classes of Government property only when the property administrator deems it essential for maintaining minimum acceptable property controls. If evidence of receipt is required for Contractor-acquired property, the Contractor shall provide it before submitting its request for payment for the property. For Government-furnished property, the Contractor shall provide the required receipt immediately upon receipt of the property.

45.502-2 -- DISCREPANCIES INCIDENT TO SHIPMENT

- (a) Government-furnished property. If overages, shortages, or damages are discovered upon receipt of Government-furnished property, the Contractor shall provide a statement of the condition and apparent causes to the property administrator and to other activities specified in the approved property control system. Only that quantity of property actually received will be recorded on the official records.

- (b) Contractor-acquired property. The Contractor shall take all actions necessary in adjusting overages, shortages, or damages in shipment of Contractor-acquired property from a vendor or supplier. However, when the shipment has moved by Government bill of lading and carrier liability is indicated, the Contractor shall report the discrepancy in accordance with paragraph (a) above.

45.503 -- RELIEF FROM RESPONSIBILITY

- (a) Unless the contract or Contracting Officer provides otherwise, the Contractor shall be relieved of property control responsibility for Government property by--
 - (1) Reasonable and proper consumption of property in the performance of the contract as determined by the property administrator;
 - (2) Retention by the Contractor, with the approval of the Contracting Officer, of property for which the Government has received consideration;
 - (3) The authorized sale of property, provided the proceeds are received by or credited to the Government;
 - (4) Shipment from the Contractor's plant, under Government instructions, except when shipment is to a subcontractor or other location of the Contractor; or
 - (5) A determination by the Contracting Officer of the Contractor's liability for any property that is lost, damaged, destroyed, or consumed in excess of that normally anticipated in a manufacturing or processing operation, if--
 - (i) The determination is furnished to the Contractor in writing;
 - (ii) The Government is reimbursed where required by the determination; and
 - (iii) Property rendered unserviceable by damage is properly disposed of, and the determination is cross-referenced to the shipping or other documents evidencing disposal.
- (b) Nonprofit organizations are relieved of responsibility for Government property when title to the property is transferred to the Contractor (see 35.014).

45.504 -- CONTRACTOR'S LIABILITY

- (a) Subject to the terms of the contract and the circumstances surrounding the particular case, the Contractor may be liable for shortages, loss, damages, or destruction of

Government property. The Contractor may also be liable when the use or consumption of Government property unreasonably exceeds the allowances provided for by the contract, the bill of material, or other appropriate criteria.

- (b) The Contractor shall investigate and report to the property administrator all cases of loss, damage, or destruction of Government property in its possession or control as soon as the facts become known or when requested by the property administrator. A report shall be furnished when completed and accepted products or end items are lost, damaged, or destroyed while in the Contractor's possession or control.
- (c) The Contractor shall require any of its subcontractors possessing or controlling Government property accountable under the contract to investigate and report all instances of loss, damage, or destruction of such property.

45.505 -- RECORDS AND REPORTS OF GOVERNMENT PROPERTY

- (a) The Contractor's property control records shall constitute the Government's official property records unless an exception has been authorized. The Contractor shall establish and maintain adequate control records for all Government property, including property provided to and in the possession or control of a subcontractor. The property control records specified in this section are the minimum required by the Government. Unless the property administrator directs otherwise, when a subcontractor has an approved property control system for Government property provided under its own prime contracts, the Contractor shall use the records created and maintained under that system.
- (b) The Contractor's property control system shall provide financial accounts for Government-owned property in the Contractor's possession or control. The system shall be subject to internal control standards and be supported by property records for such property.
- (c) Official Government property records must identify all Government property and provide a complete, current, auditable record of all transactions. The Contractor's system of records maintenance shall be sufficient to adequately control Government property as required by this section. The Contractor's system of records maintenance, as a minimum, shall be equivalent to and maintained in the same manner as the Contractor's system for maintaining records of Contractor-owned property, but need not exceed the requirements of this subpart. The records shall be safeguarded from tampering or destruction. Records shall be accessible to authorized Government personnel.
- (d) Separate property records for each contract are desirable, but a consolidated property record may be maintained if it provides the required information.

- (e) Special tooling and special test equipment fabricated from materials that are the property of the Government shall be recorded as Government-owned immediately upon fabrication. Special tooling and special test equipment fabricated from materials that are the property of the Contractor shall be recorded as Government property at the time title passes to the Government.
- (f) Property records of the type established for components acquired separately shall be used for serviceable components permanently removed from items of Government property as a result of modification.
- (g) The Contractor's property control system shall contain a system or technique to locate any item of Government property within a reasonable period of time.

45.505-1 -- BASIC INFORMATION

- (a) Unless summary records are used as authorized under paragraph (b) of this section, the Contractor's property control records shall provide the following basic information for every item of Government property in the Contractor's possession, regardless of value (other subsections of 45.505 require additional information for specific categories of Government property):
 - (1) The name, description, and National Stock Number (if furnished by the Government or available in the property control system).
 - (2) Quantity received (or fabricated), issued, and on hand.
 - (3) Unit price (and unit of measure).
 - (4) Contract number or equivalent code designation.
 - (5) Location.
 - (6) Disposition.
 - (7) Posting reference and date of transaction.
- (b) Summary records are normally adequate for special tooling, special test equipment, and plant equipment costing less than \$5,000 per unit, except where the contract administration office determines that individual item records are necessary for effective control, calibration, or maintenance. Summary records shall provide the information listed in paragraphs (a)(1) through (a)(7) of this section, but may reference a general location, provided the Contractor can locate the property within a reasonable period of time.

45.505-2 -- RECORDS OF PRICING INFORMATION

(a) Requirement for unit prices.

- (1) The Contractor's property control system shall contain the unit price for each item of Government property except as provided in (b) below. When a Contractor records the unit price of property on other than the quantitative inventory records, those supplementary records shall become part of the official Government property records.
- (2) (Note: This subparagraph (2) does not apply to nonprofit organizations.) The requirement that unit prices be contained in the official Government property records does not apply to those separate property records located at a Contractor's secondary sites and subcontractor plants; provided, that--
 - (i) Records maintained by the Prime Contractor at its primary site include unit prices; and
 - (ii) The Prime Contractor agrees to furnish actual or estimated unit prices to the secondary site or subcontractor as the need arises.
- (3) When definite information as to unit price cannot be obtained, reasonable estimates will be used.

(b) Determining unit price.

- (1) Contractor-acquired and Contractor-fabricated property. Except for items fabricated by nonprofit organizations for research and development purposes, the unit price of Contractor-acquired and Contractor-fabricated property shall be determined in accordance with the system established by the Contractor in conformance with consistently applied sound accounting principles. Generally, separate unit prices should be applied to items of special tooling and special test equipment fabricated or acquired by the Contractor. However, if the Contractor's accounting system is acceptable, and if maintaining detailed cost records results in excessive accounting cost or is otherwise impracticable, group pricing may be used for special tooling, special test equipment, and work-in-process in accordance with the Contractor's acceptable cost accounting system. All processed material, fabricated parts, components, and assemblies charged to the Contractor's work-in-process inventory, including items in temporary storage while awaiting processing, may be considered as work-in-process for this purpose.
- (2) Government-furnished property. The Government shall determine and furnish to the Contractor the unit price of Government-furnished property. Transportation and installation costs shall not generally be considered as part

of the unit price for this purpose. Normally, the unit price of Government-furnished property will be provided on the document covering shipment of the property to the Contractor. In the event the unit price is not provided on the document, the Contractor will take action to obtain the information.

45.505-3 -- RECORDS OF MATERIAL

- (a) General. All Government material furnished to the Contractor, as well as other material to which title has passed to the Government by reason of allocation from Contractor-owned stores or purchase by the Contractor for direct charge to a Government contract or otherwise, shall be recorded in accordance with the Contractor's property control system and the requirements of this section.
- (b) Consolidated stock record. When a Contractor has more than one Government contract under which Government material is provided, a consolidated record for materials may be authorized by the property administrator, provided, the total quantity of any item is allocated to each contract by contract number and each requisition of material from Contractor-owned stores is charged to the contract on which the material is to be used. The supporting document or issue slip shall show the contract number or equivalent code designation to which the issue is charged.
- (c) Custodial records. The Contractor shall maintain custodial records for tool crib items, guard force items, protective clothing, and other items issued to individuals for use in their work.
- (d) Use of receipt and issue documents. (Note: This paragraph (d) does not apply to nonprofit organizations.) The property administrator may authorize the Contractor to maintain, in lieu of stock records, a file of appropriately cross-referenced documents evidencing receipt, issue, and use of Government-provided material that is issued for immediate consumption and is not entered in the inventory record as a matter of sound business practice. This method of control may be authorized for--
 - (1) Material charged through overhead;
 - (2) Material under research and development contracts;
 - (3) Subcontracted or outside production items;
 - (4) Non-stock or special items;
 - (5) Items that are produced for direct charge to a contract, or are acquired and issued for installation upon receipt, and involve no spoilage; and

- (6) Items issued from Contractor-owned inventory direct to production or maintenance, etc.
- (e) Material issued directly upon receipt. (Note: This paragraph (e) applies only to nonprofit organizations.)
 - (1) Under fixed-price contracts, the Contractor's documents evidencing receipt and issue will be accepted as property control records for Government-furnished material issued directly by the Contractor upon receipt so as to be considered consumed under the contract.
 - (2) Under cost-reimbursement contracts, Government invoices, Contractor's purchase documents, or other evidence of acquisition and issue will be accepted as adequate property records for material furnished to or acquired by the Contractor and issued directly so as to be considered consumed under the contract.
- (f) Multi-contract cost and material control. (Note: This paragraph (f) does not apply to nonprofit organizations.)
 - (1) Description and scope. A multicontract cost and material control system substitutes a system of financial accounting for the requirements for physical identification of Government material. The system operates as follows:
 - (i) The Contractor may acquire, requisition, receive, store, and issue like items of material for the total requirements of all contracts involved in the system without identifying the material to each contract.
 - (ii) The Contractor may commingle, during any stage of contract performance, Government-owned and Contractor-owned material and work-in-process that was furnished, acquired, or produced for all Government contracts covered by the system, without physical segregation or identification to the individual contracts.
 - (iii) In lieu of physical segregation and identification to individual contracts, periodic calculation of requirements and distribution of costs to all contracts permits the allocation of costs of material to products delivered. This system, by reflecting the material expended to perform each contract at any stage in production, permits usage analysis to determine the reasonableness of consumption and expenditure of Government material.
 - (iv) The system may include all Government contracts of any type that involve common repetitive operations.

- (v) The system does not require commingling of all common materials under all contracts. For example, items of Government-furnished material of high value or in short supply may be excluded from commingling and reserved for use in performing the contract under which furnished.
 - (vi) The Contractor shall take physical inventories of material in stores included in the systems (other than work-in-process) at least annually, extend and reconcile prices to the quantitative balance for each item, and record adjustments in the stock record and financial inventory control accounts. Such physical inventories and adjustments, as well as equitable distribution to cost accounts of any inventory losses, shall be reviewed by and are subject to the approval of the property administrator.
- (2) Criteria. A multicontract cost and material control system may be authorized if--
- (i) The Contractor demonstrates that adopting the system will result in savings or improved operations or that it will otherwise be in the Government's interest;
 - (ii) The system is applied to existing Government contracts only and excludes materials acquired or costs incurred for non-Government work or in anticipation of future Government work; and
 - (iii) The Contractor's accounting system is adequate to--
 - (A) Provide on a complete and timely basis a clear "audit trail" from costs of materials acquired for each contract to materials used or disposed of on each contract;
 - (B) Reflect separately for Government-furnished and Contractor-acquired material in stores (except work-in-process) the inventory balances as affected by receipts, issues, adjustments, and other dispositions;
 - (C) Determine unit costs for each identifiable part, component, subassembly, assembly, end item, and contract item;
 - (D) Calculate amounts for cost reimbursements and progress payments during the life of the contract by applying or allocating such unit costs developed through each stage of work-in-process to contract items for the requirements of each contract; and

- (E) Assure that when Government material furnished for use under one contract is authorized for use on another contract, the initial contract receives credit.
- (3) Authorization. The administrative Contracting Officer may authorize a Contractor who is performing or will perform more than one Government contract to use the multicontract cost and material control system. The property administrator shall approve whatever detailed operating procedures are necessary for each system authorized.
- (4) Requirement. Whenever a multicontract cost and material control system is authorized, the Contractor's financial accounts shall include all material in the system acquired or furnished for Government work and shall satisfy the requirements in subdivision (f)(2)(iii) of 45.505-3 above.

45.505-5 -- RECORDS OF PLANT EQUIPMENT

- (a) Unless summary records are used as authorized under 45.505-1(b), the Contractor shall maintain individual item records for each item of plant equipment.
- (b) In addition to the information required in 45.505-1, the Contractor's records of Government-owned plant equipment, regardless of value, shall include--
 - (1) Federal Supply Code for the manufacturer (as listed in Cataloging Handbook H4-1 and H4-2) (available from the Superintendent of Documents, Government Printing Office (GPO), Washington, D.C. 20402);
 - (2) Federal Supply Classification (Cataloging Handbooks H2-1, H2-2, and H2-3) (available from GPO); and
 - (3) The original manufacturer's model or part number.
- (c) For each item of Government-owned plant equipment having a unit cost of \$5,000 or more, the Contractor shall, in addition to the requirements of (b) above, include--
 - (1) Serial number and year built (when available);
 - (2) Government identification/tag number; and
 - (3) Acquisition and disposition document references and dates.
- (d) The property administrator may determine that the information in (c)(1) and (2) above should be recorded in the property records for plant equipment costing less than \$5,000.

- (e) Accessory and auxiliary equipment shall be recorded on the record of the associated item of plant equipment. If the accessory or auxiliary item is not attached to, a part of, or acquired for use with a specific item of plant equipment, it shall be recorded either in an individual item record or in a summary stock record. When accessory and auxiliary items are permanently separated from the basic item of plant equipment, the unit price of the basic item shall be appropriately reduced.

45.505-6 -- SPECIAL REPORTS OF PLANT EQUIPMENT

An agency may set requirements for any special reports of plant equipment it determines necessary.

45.505-7 -- RECORDS OF REAL PROPERTY

- (a) The Contractor shall maintain an itemized record of the description, location, acquisition cost, and disposition of all Government real property (including unimproved real property); all alterations, all construction work, and sites connected with such alteration and construction, acquired by purchase, lease, or otherwise. These records, including maps, drawings, plans, specifications, and supplementary data where necessary, shall (1) be complete, (2) show the original cost of the property and improvements and the cost of any changes and additions, and (3) be appropriately indexed.
- (b) Costs incurred by the Contractor or the Government for new construction, including erection, installation, or assembly of Government real property in possession of the Contractor, shall be capitalized in the official Government real property records and financial accounts maintained by the Contractor for the Government.
- (c) Costs incurred for additions, expansions, extensions, conversions, alterations, and improvements, including applicable portions of capital maintenance, that increase the value, life, utility, capability, or serviceability of Government real property shall be capitalized.
- (d) Costs incurred for portable buildings or facilities specifically constructed for tests that involve destruction of the facility shall not be capitalized in the Government real property records or financial accounts.
- (e) Costs incurred for maintenance, repair, or rearrangement to maintain the Government real property in good physical condition, utility, capacity, or serviceability shall be charged to expense, and the real property records shall not be affected.
- (f) When Government-owned real property is sold, transferred, donated, destroyed by fire or other cause, abandoned-in-place, or condemned, the financial accounts shall

be reduced by the presently recorded cost and the real property records annotated with a supporting statement, including pertinent facts.

45.505-8 -- RECORDS OF SCRAP OR SALVAGE

- (a) The Contractor shall maintain records of all scrap or salvage generated, except as provided in 45.507. These records shall conform to the Contractor's established system of scrap and salvage control approved by the property administrator.
- (b) The Contractor's property control system shall provide the following information:
 - (1) Contract number, if practical, or equivalent code designation from which the scrap or salvage derived.
 - (2) Nomenclature or description of salvable items or classification (material content) of scrap.
 - (3) Quantity on hand.
 - (4) Posting reference and date of transaction.
 - (5) Disposition.

45.505-9 -- RECORDS OF RELATED DATA AND INFORMATION

The Contractor shall maintain property control and accountability, in accordance with sound business practice, of manufacturing or assembly drawings; installation, operation, repair, or maintenance instructions; and other similar information furnished to the Contractor by the Government or generated or acquired by the Contractor under the contract and for which title vests in the Government. The requirements of this subpart do not otherwise apply to such property.

45.505-10 -- RECORDS OF COMPLETED PRODUCTS

The Contractor shall maintain a record of all completed products produced under a contract as follows:

- (a) When there is no time lapse between Government inspection and acceptance of the completed products and shipment from the plant site, the records shall, as a minimum, consist of a summary of quantities accepted and shipped. When end items are accepted by the Government and stored with the Contractor awaiting, shipment, the record shall identify quantities stored, location, and disposition action.

- (b) On contracts that provide for the Contractor to retain completed products for further use under the contract or other contracts, such items shall be considered "Government-furnished property" upon acceptance and shall be recorded as required by this subpart.
- (c) When completed products are returned to a Contractor under the terms of a warranty clause, the Contractor shall maintain, by contract, a record containing a description of the items involved, quantities received and returned to the Government, and other pertinent data necessary to determine that a proper accounting for all property has been made.

45.505-11 -- RECORDS OF TRANSPORTATION AND INSTALLATION COSTS OF PLANT EQUIPMENT

(Note: This subsection 45.505-11 does not apply to nonprofit organizations.)

- (a) Transportation costs.
 - (1) The Contractor shall record within the property control system the transportation and installation costs directly borne by the Government for each item of Government-owned plant equipment with an acquisition cost of \$5,000 or more. The administrative Contracting Officer may require the Contractor to provide such recorded costs for use in computing rental charges.
 - (2) If transportation costs are not included in the price of equipment delivered, the Contractor shall contact the property administrator for instructions for obtaining applicable freight data.
- (b) Installation costs.
 - (1) When the Contractor performs installation, the cost shall be computed in accordance with the Contractor's accounting system (if the system is acceptable for other contract cost determination purposes) and recorded in the property record.
 - (2) When installation is subcontracted, the Contractor shall record the cost paid to the subcontractor in the property record.
 - (3) When installation costs are included in the price of equipment delivered to the using location, the property records should be so annotated.

45.505-12 -- RECORDS OF MISDIRECTED SHIPMENTS

The Contractor's property control system shall provide the following information regarding each misdirected shipment of Government property received:

- (a) Identity of shipment, such as shipping document or bill of lading.
- (b) Origin of shipment.
- (c) Content (items in the shipment) per shipping documents, if available.
- (d) Location.
- (e) Disposition.

45.505-13 -- RECORDS OF PROPERTY RETURNED FOR REWORK

- (a) The Contractor shall maintain quantitative records of property returned for processing to assure control from time of receipt through return of the items to the Government. The Contractor shall establish item records under its property control system and shall include the information required in 45.505-1.
- (b) The records shall specify the quantity of units returned to the Government and the quantity otherwise disposed of with proper authority.

45.505-14 -- REPORTS OF GOVERNMENT PROPERTY

- (a) The Contractor's property control system should provide annually the total acquisition cost of Government property for which the Contractor is accountable under each contract with each agency, including Government property at subcontractor plants and alternate locations. In the following classifications (property classifications may be varied to meet individual agency needs) shall be reported:
 - (1) Land and rights therein.
 - (2) Other real property, including utility distribution systems, buildings, structures, and improvements thereto.
 - (3) Plant equipment.
 - (4) Special tooling.
 - (5) Special test equipment.

- (6) Material.
- (7) Agency peculiar property.
- (b) The Contractor shall report the information under paragraph (a) as directed by the Contracting Officer.

45.506 -- IDENTIFICATION

- (a) Upon receipt of Government property, the Contractor shall promptly--
 - (1) Identify the property in accordance with agency regulations;
 - (2) Mark the property in accordance with this section; and
 - (3) Record the property in its property control records.
- (b)
 - (1) Except for the following, all Government property shall be marked with in indication of Government-ownership:
 - (i) Items issued to individuals for use in their work (e.g., protective clothing or tool crib tools) where adequate physical control is maintained over the items.
 - (ii) Property of a bulk type, or where its general nature of packing or handling precludes adequate marking.
 - (iii) Material that is commingled, as authorized by 45.507.
 - (iv) Where the property administrator agrees that marking is impractical.
 - (2) Exempted items shall be entered and described on the accountable property records.
- (c)
 - (1) In addition to marking with an indication of Government ownership, the following property shall be marked with a serial number in accordance with procedures approved by the property administrator:
 - (i) Special tooling.
 - (ii) Special test equipment.

- (iii) Components of special test equipment that have an acquisition cost of \$5,000 or more and are incorporated in a manner that makes removal and reutilization feasible and economical.
 - (iv) Plant equipment.
 - (v) Accessory or auxiliary equipment associated with a specific item of plant equipment that is recorded on the property records, if necessary to assure return with the associated basic item.
- (2) The Contractor shall record assigned numbers on all applicable documents pertaining to the property control system.
- (3) If the property is included in a standard agency registration system, the Contractor may use the property's registration number as the serial number. The Contractor should obtain the registration number through the property administrator from the owning agency.
- (d) The markings in paragraphs (b) and (c) of this section shall be--(1) securely affixed to the property, (2) legible, and (3) conspicuous. Examples of appropriate markings are bar coding, decals, and stamping. If marking will damage the property or is otherwise impractical, the Contractor shall promptly notify the property administrator and ask for the item to be exempted (see paragraph (b) of this section). Markings shall be removed or obliterated when Government property is sold, scrapped, or donated.

45.507 -- SEGREGATION OF GOVERNMENT PROPERTY

Government property shall be kept physically separate from Contractor-owned property. However, when advantageous to the Government and consistent with the Contractor's authority to use such property, the property may be commingled--

- (a) When the Government property is special tooling, special test equipment, or plant equipment clearly identified and recorded as Government property;
- (b) When approved by the property administrator in connection with research and development contracts;
- (c) When material is included in a Multi-contract cost and material control system (however, see 45.505-3(f));
- (d) When (1) scrap of a uniform nature is produced from both Government-owned and Contractor-owned material and physical segregation is impracticable, (2) scrap produced from Government-owned material is insignificant in consideration of the

cost of segregation and control, or (3) Government contracts involved are fixed-price and provide for the retention of the scrap by the Contractor; or

- (e) When otherwise approved by the property administrator.

45.508 -- PHYSICAL INVENTORIES

The Contractor shall periodically physically inventory all Government property (except materials issued from stock for manufacturing, research, design, or other services required by the contract) in its possession or control and shall cause subcontractors to do likewise. The Contractor, with the approval of the property administrator, shall establish the type, frequency, and procedures. These may include electronic reading, recording and reporting or other means of reporting the existence and location of the property and reconciling the records. Type and frequency of inventory should be based on the Contractor's established practices, the type and use of the Government property involved, or the amount of Government property involved and its monetary value, and the reliability of the Contractor's property control system. Type and frequency of physical inventories normally will not vary between contracts being performed by the Contractor, but may vary with the type of property being controlled. Personnel who perform the physical inventory shall not be the same individuals who maintain the property records or have custody of the property unless the Contractor's operation is too small to do otherwise.

45.508-1 -- INVENTORIES UPON TERMINATION OR COMPLETION

- (a) General. Immediately upon termination or completion of a contract, the Contractor shall perform and cause each subcontractor to perform a physical inventory, adequate for disposal purposes, of all Government property applicable to the contract, unless the requirement is waived as provided in paragraph (b) below.
- (b) Exception. The requirement for physical inventory at the completion of a contract may be waived by the property administrator when the property is authorized for use on a follow-on contract; provided, that--
 - (1) Experience has established the adequacy of property controls and an acceptable degree of inventory discrepancies; and
 - (2) The Contractor provides a statement indicating that record balances have been transferred in lieu of preparing a formal inventory list and that the Contractor accepts responsibility and accountability for those balances under the terms of the follow-on contract.
- (c) Listings for disposal purposes. (Note: This paragraph (c) applies only to nonprofit organizations.)

- (1) Standard items that have been modified may be described on listings for disposal purposes as standard items with a general description of the modification.
- (2) Items that have been fabricated, such as test equipment, shall be described in sufficient detail to permit a potential user to determine whether they are of sufficient interest to warrant further inspection.

45.508-2 -- REPORTING RESULTS OF INVENTORIES

The Contractor shall, as a minimum, submit the following to the property administrator promptly after completing the physical inventory:

- (a) A listing that identifies all discrepancies disclosed by a physical inventory.
- (b) A signed statement that physical inventory of all or certain classes of Government property was completed on a given date and that the official property records were found to be in agreement except for discrepancies reported.

45.508-3 -- QUANTITATIVE AND MONETARY CONTROL

When requested by the Contracting Officer, the Contractor's reports of results of physical inventory shall be prepared on a quantitative and monetary basis and segregated by categories of property.

45.509 -- CARE, MAINTENANCE, AND USE

The Contractor shall be responsible for the proper care, maintenance, and use of Government property in its possession or control from the time of receipt until properly relieved of responsibility, in accordance with sound industrial practice and the terms of the contract. The removal of Government property to storage, or its contemplated transfer, does not relieve the Contractor of these responsibilities.

45.509-1 -- CONTRACTOR'S MAINTENANCE PROGRAM

- (a) Consistent with the terms of the contract, the Contractor's maintenance program shall provide for--
 - (1) Disclosure of need for and the performance of preventive maintenance;
 - (2) Disclosure and reporting of need for capital rehabilitation; and

- (3) Recording of work accomplished under the program.
- (b) Preventive maintenance is maintenance performed on a regularly scheduled basis to prevent the occurrence of defects and to detect and correct minor defects before they result in serious consequences. An effective preventive maintenance program shall include at least--
 - (1) Inspection of buildings at periodic intervals to assure detection of deterioration and the need for repairs;
 - (2) Inspection of plant equipment at periodic intervals to assure detection of maladjustment, wear, or impending breakdown;
 - (3) Regular lubrication of bearings and moving parts in accordance with a lubrication plan;
 - (4) Adjustments for wear, repair, or replacement of worn or damaged parts and the elimination of causes of deterioration;
 - (5) Removal of sludge, chips, and cutting oils from equipment that will not be used for a period of time;
 - (6) Taking necessary precautions to prevent deterioration caused by contamination, corrosion, and other substances; and
 - (7) Proper storage and preservation of accessories and special tools furnished with an item of plant equipment but not regularly used with it.
- (c) The Contractor's maintenance program shall provide for disclosing and reporting the need for major repair, replacement, and other capital rehabilitation work for Government property in its possession or control.
- (d) The Contractor shall keep records of maintenance actions performed and any deficiencies in the Government property discovered as a result of inspections.

45.509-2 -- USE OF GOVERNMENT PROPERTY

- (a) The Contractor's procedures shall be in writing and adequate (1) to assure that Government property will be used only for those purposes authorized in the contract and that any required approvals will be obtained, and (2) to provide a basis for determining and allocating rental charges.
- (b) With respect to plant equipment with an acquisition value of \$5,000 or more, the procedures, as a minimum, shall--

- (1) Establish a minimum level of use below which an analysis of need shall be made and retention justified, except for inactive plants and equipment retained for mobilization (the use level may be established for individual items or families of items, depending upon circumstances of use);
- (2) Provide for recording authorized and actual use consistent with the established use levels;
- (3) Require periodic analyses of production needs for plant equipment utilization based upon known requirements; and
- (4) Provide for prompt reporting to the Contracting Officer of all plant equipment for which retention is not justified.

45.510 -- PROPERTY IN POSSESSION OF SUBCONTRACTORS

The Contractor shall require any of its subcontractors possessing or controlling Government property to adequately care for and maintain that property and that it is used only as authorized by the contract. The Contractor's approved property control system shall include procedures necessary for accomplishing this responsibility.

45.511 -- AUDIT OF PROPERTY CONTROL SYSTEM

The Government may audit the Contractor's property control system as frequently as conditions warrant. These audits may take place at any time during contract performance, upon contract completion or termination, or at any time thereafter during the period the Contractor is required to retain such records. The Contractor shall make all such records and related correspondence available to the auditors.

2. SUBPART 945.5 -- MANAGEMENT OF GOVERNMENT PROPERTY IN THE POSSESSION OF CONTRACTORS

945.506 -- IDENTIFICATION

The requirements of FAR 45.506 apply to Government property having a unit cost of \$1,000 or more.

945.570-2 -- ACQUISITION OF MOTOR VEHICLES

- (a) The GSA Interagency Fleet Management System (GSA-IFMS) is the first source of supply for providing motor vehicles to Contractors; however, Contracting Officer approval is required for Contractors to utilize this service.
- (b) Prior approval of GSA must be obtained before-
 - (1) Fixed-price Contractors can use the GSA-IFMS;
 - (2) DOE-owned motor vehicles can be furnished to any Contractor in an area served by a GSA-IFMS; and
 - (3) A Contractor can commercially lease a motor vehicle for more than 60 days.
- (c) GSA has the responsibility for acquisition of motor vehicles for Government agencies. All requisitions (GSA Form 1781) shall be processed in accordance with 41 CFR 101-26.501.
- (d) Contractors shall submit all motor vehicle requirements to the Contracting Officer for approval.
- (e) The acquisition of sedans and station wagons is limited to small, subcompact, and compact vehicles which meet Government fuel economy standards. The acquisition of light trucks is limited to those vehicles which meet the current fuel economy standards set by Executive Orders 12003 and 12375.
- (f) Cost reimbursement Contractors may be authorized by the Contracting Officer to utilize GSA Federal Supply Schedule 751, Motor Vehicle Rental, for short term rentals not to exceed 60 days, and are required to utilize available GSA consolidated leasing programs for long term (60 continuous days or longer) commercial leasing of passenger vehicles and light trucks.
- (g) The Office of Property Management, within the Headquarters procurement organization shall certify all requisitions prior to submittal to GSA for the following:
 - (1) The acquisition of sedans and station wagons.
 - (2) The lease (60 continuous days or longer) of any passenger automobile.
 - (3) The acquisition or lease (60 continuous days or longer) of light trucks less than 8,500 GVW.
- (h) Purchase requisitions for other motor vehicles may be submitted directly to GSA when approved by the Contracting Officer.

- (i) Contractors shall thoroughly examine motor vehicles acquired under a GSA contract for defects. Any defect shall be reported promptly to GSA, and repairs shall be made under terms of the warranty.

945.570-7 -- DISPOSITION OF MOTOR VEHICLES

- (a) The Contractor shall dispose of DOE-owned motor vehicles as directed by the Contracting Officer.
- (b) DOE-owned motor vehicles may be disposed of as exchange/sale items when directed by the Contracting Officer; however, a designated DOE official must execute the Title Transfer forms.

945.570-8 -- REPORTING MOTOR VEHICLE DATA

- (a) Contractors conducting motor vehicle operations shall forward annually (on or before December 1) to the Contracting Officer their plan for acquisition of motor vehicles for the next fiscal year for review, approval and submittal to DOE Headquarters. This plan shall conform to the fuel efficiency standards for motor vehicles for the applicable fiscal year, as established by Executive Orders 12003 and 12375 and as implemented by GSA and current DOE directives. Additional guidance for the preparation of the plan will be issued by the Contracting Officer, as required.
- (b) Contractors operating DOE-owned and/or commercially leased (for 60 continuous days or longer) motor vehicles shall prepare and submit the following annual year-end reports to the Contracting Officer:
 - (1) DOE Report of Motor Vehicle Data (passenger vehicles).
 - (2) DOE Report of Truck Data.

3. SUBPART 917.74 -- ACQUISITION, USE, AND DISPOSAL OF REAL ESTATE [61 FR 41707, August 9, 1996]

917.7401 -- GENERAL

Special circumstances and situations may arise under cost-type contracts when, in the performance of their contract or subcontract, the performer shall be required, or otherwise find it necessary, to acquire real estate or interests therein by:

- (a) Purchase, on DOE's behalf or in its own name, with title eventually vesting in the Government.
- (b) Lease, and DOE assumes liability for, or otherwise will pay for the obligation under the lease.
- (c) Acquisition of temporary interest through easement, license or permit, and DOE funds the cost of the temporary interest. [61 FR 41707, August 9, 1996]

917.7402 -- POLICY

It is the policy of the Department of Energy that when real estate acquisitions are made, the following policies and procedures shall be applied to such acquisitions:

- (a) Real estate acquisitions shall be mission essential; effectively, economically, and efficiently managed and utilized; and disposed of promptly, when not needed;
- (b) Acquisitions shall be justified, with documentation which describes the need for the acquisitions, general requirements, cost, acquisition method to be used, site investigation reports, site recommended for selection, and property appraisal reports; and
- (c) Acquisition by lease, in addition to the requirements in paragraphs (a) and (b) of this section:
 - (1) Shall not exceed a one-year term if funded by one-year appropriations.
 - (2) May exceed a one-year term, when the lease is for special purpose space funded by no-year appropriations and approved by the Department.
 - (3) Shall contain an appropriate cancellation clause which limits the Government's obligation to no more than the amount of rent to the earliest cancellation date plus a reasonable cancellation payment.
 - (4) Shall be consistent with Government laws and regulations applicable to real estate management. [61 FR 41707, August 9, 1996]

917.7403 -- APPLICATION

The clause at 48 CFR 952.217-70 will be included in contracts or modifications where Contractor acquisitions are expected to be made. [61 FR 41708, August 9, 1996]

4. SEMI-ANNUAL SUMMARY REPORT OF DOE-OWNED PLANT AND CAPITAL EQUIPMENT

This section includes the Department of Energy Form DOE F 4300.3 and the instructions for completion of that form. Also included here are forms and instructions for reporting Contractor-held real property to NETL.

The reports are to be completed as of February 28 and August 31 of each year. The Contractor will not be notified in advance that reports are due. It is the Contractor's responsibility to submit the required reports. This requirement has been omitted from post 1998 awards and replaced with the annual report (see page 118).

The real property information is provided for contracts that incorporate DEAR 952.217-70, "Acquisition of Real Property," as required by DEAR 917.7403 and includes:

1. NETL Form 136 to be used to report any real or related personal property to NETL.
2. Explanations on what is required for each section.
3. Tables to be used in conjunction with the form.

The DOE Facility Information Management System (FIMS) is a method of identifying and reporting any Government-owned or leased property in the control of Contractors which can be considered "real property" or "related personal property." The definitions below are the basis by which this determination is made.

1. Real Property. Real Property includes land, improvements on the land, or both, including interests therein. The chief characteristics of real property (real estate) are its immobility and tangibility. It comprises land and all things of a permanent and substantial nature affixed thereto, whether by nature or by the hand of man. By nature it means trees, the products of the land, and natural resources; by the hand of man means those objects, buildings, fences, and bridges which he erects upon the land. All equipment or fixtures such as plumbing, electrical, heating, built-in cabinets, and elevators which are installed in a building in a more or less permanent manner usually are held to be part of the real estate.
2. Related Personal Property. Related personal property means any personal property which is an integral part of real property or is related to, designed for, or specially adapted to the functional or productive capacity of the real property and removal of this personal property would significantly diminish the economic value of the real property or the related personal property, itself. Normally, common use items including, but not limited to, general-purpose furniture, utensils, office machines, office supplies, or general purpose vehicles, are not considered to be related personal property. For accounting purposes, related personal property must be included in an appropriate asset code for real property (Asset Codes 401 through 699 and 800).

3. Personal Property. Any property that is not real or related personal property. Generally, movable items; that is, those not permanently affixed to and part of the real estate. Generally, but with exceptions, items remain personal property if they can be removed without serious damage to or diminished functional value of either the real estate or the items themselves.

While it is not always a simple matter to differentiate between what is real and what is personal property, most plant and equipment which falls within the asset types listed in Table 6 on Page 53 of a fixed or permanent nature are reportable as real property.

If you determine that any Government property currently in your possession meets the criteria set forth in this section and is, in fact, real or related personal property, please complete the applicable parts of the NETL 136 and return it with the DOE F 4300.3.

Reports are required for each period even if there is no change in the property value from the previous period or if there is no property accountable under that contract.

The submission of the NETL 136 does not exclude that information from being reported on DOE F 4300.3.

U.S Department of Energy

Semi-Annual Summary Report of DOE-Owned Plant and Capital Equipment

General Instructions

This report provides DOE with financial data on Government-furnished or Contractor-acquired property in which title is vested with the Government and facilitates the reporting of changes to property accounts, and the reconciliation of physical inventories to property accounts. Preparation of the report requires a breakdown of the total number of items and total dollar value by asset type code (columns 1 through 9 of the form). Please note the requirement for the name, title, telephone number, and signature of the person responsible for the preparation of the report. Dollar amounts shown shall be rounded to the nearest dollar. The report is designed to account for all DOE-owned P&CE purchased by or furnished to your organization under DOE contracts awarded to your organization.

This report will be completed as of February 28 and August 31 of each year, and as of the final date of the contract. These completion dates apply only to this report. The reports will be submitted to the property administrator, and are due not later than 45 days after the end of the reporting period.

The original and two copies of this report should be sent to the property administrator, who in turn will provide copies to the Contracting Officer and to the servicing financial organization.

Negative reports are required.

Plant and Capital Equipment Definition

Plant and Capital Equipment includes land, land rights, depletable resources, improvements to land, buildings and structures, utilities, and equipment. The reporting criteria are as follows:

Plant Real property which includes land, buildings, related personal property, and other structures and facilities (Asset Codes 401 through 699 and 800). General Services Administration (GSA) regulations require the reporting of this property regardless of value.

Capital Equipment - Personal property items (Asset Codes 710 through 799) with a unit acquisition cost of \$5,000 or more, and a service life of more than two years per unit should be reported.

Generally, DOE Appropriation Acts differentiate between costs budgeted for plant and capital equipment and costs budgeted for operating expenses. Items meeting the P&CE criteria should be budgeted as such and reported on line 1a. Capital items purchased from operating funds should be reported on line 1b.

Instructions - Summary of Acquisitions and Dispositions by Type of Transactions

Acquisition

1. Purchases - The cost of equipment acquired by purchase includes net invoice cost less discount, plus transportation charges and installation costs.

The cost of land and land rights includes the purchase price, other acquisition costs, and net costs of demolition of facilities acquired with the land.

The cost of completed facilities purchased from non-Government sources includes the purchase price, other cost incident to the purchase, the net cost incident to the purchase, and the net cost of converting the facilities to make them useful to DOE.

Equipment acquired by the lease may qualify as DOE-owned plant and capital equipment. Contact the DOE Contracting Officer for specific reporting guidance on all equipment acquired by lease.

The cost of facilities constructed under contract includes all payments made to the construction contractor, the cost of items furnished by DOE and the payments made for architect-engineering contractor's services related to the construction work if not otherwise provided by DOE, the operating contractor, or the construction contractor.

2. Fabrications - Include equipment items fabricated by your shop, scientific personnel, or subcontractors. Fabrications costed with the Capital Equipment obligations (Program 35) that are incomplete should be identified separately from completed fabrications. Costs incurred for fabrication projects that are in progress at the end of the reporting period should be reported on lines 2b and 2c. For projects completed during a reporting period, the total project cost should be reported on line 2d.
3. No-Charge-Transfers from Other DOE Offices or Contractors - Record transferred P&CE at the original acquisition cost. All costs of normal packing, handling, etc., and any costs of removal, including dismantling of items transferred, shall be borne by the transferor. All costs of transportation shall be borne by the transferee. Where purchasing and warehousing activities are centralized with one DOE Contractor at a given location to provide routinely for the needs of other DOE Contractors at that location, a pro rata share of the cost of such activities shall be borne by the transferee. Under no circumstances will such costs be recorded by the transferee in an inventory account, or will such costs be transferred for incidental transactions with a DOE Contractor at another location.
4. No-Charge-Transfers from Other Federal Agencies - such transfers are treated in the same manner as transfers from another DOE organization as in 3 above.
5. Other - Include a brief explanation of the transaction such as physical inventory adjustments or any other additions not included in items 1 through 4 above.
6. Total Acquisitions - Total of lines 1 through 5.

Dispositions

7. Sales - Includes P&CE sold as scrap or as a reusable item. Cash collections from the sale of P&CE shall be handled as reductions to Contractor's immediate cash requirements, and are to be credited to the operating activity or as salvage credits if credited to the P&CE budget activity. When the sale is to be made by the General Services Administration (GSA), no entries shall be made until the sale has been completed.
8. Trade-Ins - Includes P&CE traded-in for purchased P&CE which were included on line 1, Purchases.
9. No-Charge-Transfers to Other DOE Offices or Contractors - Remove transferred P&CE at the original acquisition cost. See line 3, No-Charge-Transfers from Other DOE Offices or Contractors for transfer or responsibilities.
10. No-Charge-Transfers to Other Federal Agencies - Such transfers are treated in the same manner as transfers to another DOE organization as in 9 above.
11. Other - Include a brief explanation of the transaction such as extraordinary obsolescence, physical inventory adjustment, transfer to title etc., not included in 7 through 10 above. If property was lost, damaged, or destroyed, give date relief of accountability was granted.
12. Total Dispositions - Total of lines 7 through 11.

Additional instructions for the management of Government property in the possession of off-site contractors are in FAR 45.5 and DEAR 945.5. Contracts issued prior to April 1, 1984, will continue to reference DOE-PMR 109-60.

DOE REAL PROPERTY INVENTORY SYSTEM
NATIONAL ENERGY TECHNOLOGY LABORATORY
SITE AND AREA FIELDS

Item	Identification	Completion
1	Primary Operating Contractor	The full name of the operating contractor of an area.
2	Primary Supporting Contractor	The full name of the supporting contractor of an area (if any).
3	Total Acreage	The total acreage of an area to the nearest tenth.
4	Location	The legal address of the site: street name, city, county, state, and zip code; or section, township, and range as appropriate. A post office box number cannot be used.

DOE REAL PROPERTY INVENTORY SYSTEM
NATIONAL ENERGY TECHNOLOGY LABORATORY
OWNED BUILDING FIELDS

Item	Identification	Completion
1	Building Name	The building name, as used locally, for identification purposes. If there is no name at present, provide one (i.e., Test Building, Administration Building, etc.).
2	Building Number	Use the locally derived building numbering system. If there is no number, provide one.
3	Year Construction Completed	The date the building was occupied or accepted by the Government.
4	Year Acquired	Identifies when a building was acquired (rather than built) by DOE.
5	Construction Type Code	Code that identifies the composition or construction of a facility or other structure. If more than one construction type is encountered, use the predominant one. See Table 1, Page 44.
6	Designed Use Code	Code that indicates the use for which the building was constructed. See Table 2, Page 45.
7	Current Use Code	Code that indicates the use for which the building was constructed. See Table 2, Page 45.
8	Acquisition Cost	The original cost of a building including the cost of fixtures, elevators, and air-conditioning systems. If the building is acquired after construction, the cost should be the amount the Government paid for the property.
9	Condition Adequacy Code	The cost that indicates the condition or adequacy of the building. See Table 3, Page 46.
10	Sponsor Code	The code associated with the program utilizing the building. See Table 4, Pages 47-49.
11	Number of Floors	The number of floors in a given building, including any below-ground floors.

DOE REAL PROPERTY INVENTORY SYSTEM
NATIONAL ENERGY TECHNOLOGY LABORATORY
OWNED BUILDING FIELDS

Item	Identification	Completion
12	Current Use Occupied	The percentage of the building currently occupied (generally 100 percent).
13	Gross Floor Area	The gross floor area in square feet for a building. Use the outer dimensions of the building for calculation.
14	Underlying Land Control	The type of ownership or means of control of the land on which an owned building is located. See Table 9, Page 57.

DOE REAL PROPERTY INVENTORY SYSTEM
NATIONAL ENERGY TECHNOLOGY LABORATORY
OTHER STRUCTURES AND FACILITIES FIELDS

Item	Identification	Completion
1	Other Structures/Facilities Code	Identifies the specific type of other structure or facility. See Table 5, Pages 50-55.
2	Identifier Name	Name, as assigned by the field for local identification purposes, of the structure or facility. If there is no name, provide one.
3	Size/Capacity	The size or capacity associated with a specific other structure or facility in units of measure identified in Table 5, Pages 50-55.
4	Construction Type Code	Code that identifies the composition of a facility or other structure. Use only the predominant value. See Table 1, Page 44.
5	Condition/Adequacy Code	The code that indicates the condition or adequacy of another structure or facility. See Table 3, Page 46.
6	FIS Asset Type	The Financial Information Standards code that identifies the asset type of the real property being reported. See Table 6, Page 56.
7	FIS Status	The status of the other structure or facility being reported. See Table 7, Page 56.
8	Original Cost	The cost reflected in the accounting records.
9	Improvement Costs	The cumulative total of capital improvements to the structure or facility (improvements over \$1,000).
10	Underlying Land Control	The type of ownership or means of control of the land on which the structure is located. See Table 9, Page 57.

DOE REAL PROPERTY INVENTORY SYSTEM
NATIONAL ENERGY TECHNOLOGY LABORATORY
LEASED LAND FIELDS

Item	Identification	Completion
1	Primary Land Use	Code that identifies the use of a site's land. See Table 8, Page 57.
2	Acreage	<p>Urban/Rural -- Report urban and/or rural acreage to the nearest tenth of an acre. If the land parcel includes both rural and urban acreage, both should be reported as such.</p> <p>Land is classified as urban when located (1) in an incorporated place of 2,500 inhabitants or more, (2) in a densely settled incorporated place of 2,500 inhabitants or more, and (3) in a densely settled urban fringe area around cities of 50,000 inhabitants or more.</p>
3	Lessor Address	Include full name, street name, city, state, and zip code of lessor.
4	Lessee Name	If the party leasing the land is not DOE, this data should be provided.
5	Annual Rental Rate	The annual rental rate, rounded to the nearest whole dollar. When the rental period is less than one year, or on other than an annual basis, convert the rate to an annual basis.
6	Effective Date of Lease	The commencement date of the current lease.
7	Expiration Date of Lease	The expiration date of the current lease. If any option has been exercised, the expiration date of the extended period should be used.
8	Date of Original Occupancy	The date when the leased land was first occupied. It must be the same as or greater than the effective date.
9	Lessor Cancellation Rights	Indicator that shows that the lessor does or does not have the right to terminate a lease. This is a yes or no answer.

DOE REAL PROPERTY INVENTORY SYSTEM
NATIONAL ENERGY TECHNOLOGY LABORATORY
LEASED LAND FIELDS

Item	Identification	Completion
10	Lessor Cancellation Rights Days Notice	When the lessor has the right to terminate a lease, this provides the number of days advance notice that must be given to the lessee.

DOE REAL PROPERTY INVENTORY SYSTEM
NATIONAL ENERGY TECHNOLOGY LABORATORY
LEASED BUILDING FIELDS

Item	Identification	Completion
1	Building Number	Use the locally derived building numbering system. If there is no number, provide one.
2	Building Name	The building name, as used locally, for identification purposes. If there is no name, provide one.
3	Construction Type	Code that identifies the composition or construction of a building. Use only the predominant value. See Table 1, Page 44.
4	Designed Use Code	Code that indicates the use for which the building was constructed. See Table 2, Page 45.
5	Current Use Code	Code that indicates the predominant current use of a building. See Table 2, Page 45.
6	Condition Adequacy Code	The code that indicates the condition or adequacy of a building. See Table 3, Page 46.
7	Sponsor Code	The code associated with the program utilizing the building. See Table 4, Pages 47-49.
8	Underlying Land Control	The type of ownership or means of control of the land on which a building is located. See Table 9, Page 57.
9	Number of Floors	The number of floors in a given building, including any below-ground floors.
10	Current Use Occupied	The percentage of the building currently being occupied (generally 100 percent).
11	Lessor Address	Include full name, street name, city, state, and zip code of lessor.
12	Lessee Name	If the party leasing the land is not DOE, this data should be provided.
13	Gross Floor Area	The gross square feet of the building, using the outer building dimensions.
14	Effective Date of Lease	The commencement date of the current lease.

DOE REAL PROPERTY INVENTORY SYSTEM
NATIONAL ENERGY TECHNOLOGY LABORATORY
LEASED BUILDING FIELDS

Item	Identification	Completion
15	Expiration Date of Lease	The expiration date of the current lease. If any option has been exercised, the expiration date of the extended period should be used.
16	Escalation Per Year	Whether an escalation in service charges, taxes, or other expenses to DOE is allowed during the life of the present lease. This is a yes or no answer.
17	Lessor Cancellation Rights	Whether the lessor has the right to cancel a lease. This is a yes or no answer. If yes, give number of days that the lessor is allowed to give notice of a lease cancellation.
18	Government Cancellation Rights	Whether the Government has the right to cancel a lease. This is a yes or no answer. If yes, give number of days that the Government is allowed to give notice of a lease cancellation.
19	Annual Rental Rate	The dollar amount that DOE is paying to rent the building for one year.
20	Date of Original Occupancy	The date on which the building was originally occupied.
21	Services	Who is responsible for the maintenance and utilities of the building. This is either the Government or the lessor.
22	Gross Floor Area	The gross floor area in square feet for a building. Use the outer dimensions of the building for calculation.

Table 2. Building Usage Code

Code	Classification
10	<u>Office</u> . Buildings used primarily for office space.
21	<u>Hospital</u> . Buildings used primarily for furnishing in-patient diagnosis and treatment under the supervision of physicians.
23	<u>School</u> . Buildings used primarily for formally organized instruction.
29	<u>Other Institutional Uses</u> . Buildings used for institutional purposes other than schools and hospitals. Include libraries, museums, outpatient clinics, etc.
30	<u>Housing</u> . Buildings used primarily for dwelling purposes.
40	<u>Storage</u> . Buildings used for storage purposes such as warehouses and garages used primarily for storage of vehicles or materials.
50	<u>Industrial</u> . Buildings specifically designed and used primarily for production or manufacturing.
60	<u>Service</u> . Buildings used in connection with service activities; such as maintenance and repair shops, laundry plants, and garages used primarily for vehicle maintenance and repair.
70	<u>Research and Development</u> . Buildings used directly in basic or applied research in the sciences (including medicine) and in engineering. Include buildings used in the design, development, and testing of prototypes and processes such as chemistry, physics, and medical laboratories and observatories for meteorological research. Do not include medical or industrial laboratories used in routine testing which should be reported as Hospital and Industrial, respectively.
80	<u>All Other</u> . Buildings which cannot be classified elsewhere.

Table 3. Conditions/Adequacy Table for Buildings and Structures

Code	Data Base Description	Full Description
01	Adequate	Adequate
02	Overcrowded Off Func	Overcrowded Office Function
03	Overcrowded Opers	Overcrowded Operations
04	Mech Sys Inadeqte for Curr Use	Mechanical Systems Inadequate for Current Use
05	Elec Sys Inadqte for Curr Use	Electrical Systems Inadequate for Current Use
06	Fram/Layout Dsgn Inadqte	Framing or Layout Design Inadequate for Current Use
08	Mech Sys Deter	Mechanical Systems Deteriorated
09	Elec Sys Deter	Electrical Systems Deteriorated
10	Structural Sys Deter	Structural Systems Deteriorated
11	Roof Deter	Roof Deteriorated
12	Noncomp w/ Appl Regs	Noncompliance with Applicable Regulations
13	Loc Inadqte for Curr Use	Location Inadequate for Current Use
14	Unrel Due to DSGN	Unreliable Due to Design
15	Unrel Due to Deter	Unreliable Due to Deterioration
16	Redundant Sys Req	Redundant System Required
17	Distr Inapp for Curr Use	Distribution Inappropriate for Current Use
18	Capacity Inadqte for Curr Use	Capacity Inadequate for Current Use
19	Roadbed/Deck Deter	Deterioration of Roadbed or Deck
20	Geomet Dsgn Inadqte for Curr Use	Geometric Design Inadequate for Current Use
21	Roadbed Surf Inadqte for Curr Use	Roadbed Surface Inadequate for Current Use
22	Traffic Cntrl Dev Inadqte FC	Traffic Control Devices Inadequate for Current Use
23	Drainage Sys Inadqte	Drainage System Inadequate
24	Abandoned	Use to Indicate Abandoned Building
25	Abandoned-Contaminated	Indicates Abandoned Contaminated Building

5. TERMINATION OR COMPLETION INVENTORIES

Final inventories for the National Energy Technology Laboratory must be received by the Reports Receipt Coordinator at the contract expiration date regardless of whether or not the contract will be extended. If there is a deviation from this policy, the Contracting Officer will notify the Contractor.

All Government-owned property must be reported. This includes all plant and capital equipment, non-capital equipment, and any residual materials and supplies. The Contractor shall submit the final inventory to this office by using the SF 1428 as a summary cover sheet for the SF 120.

If any property is purchased after the final inventory is submitted, the Contractor shall update the final inventory listings. If the Contractor has an interest in purchasing or retaining any residual property, that request should be submitted in writing along with the final inventory.

After review and acceptance of the final inventory, the NETL Organizational Property Management Officer will provide the Contractor with disposal instructions using the prioritized methods listed below.

- a. Purchase or retention by the Prime Contractor or subcontractor of Contractor-acquired property at acquisition cost.
- b. Return of Contractor-acquired property to suppliers.
- c. Utilization within the Government (through application of prescribed screening procedures -- first within NETL, second through DOE, and third through all Federal agencies).
- d. Donations to eligible donees.
- e. Sale (including purchase or retention at less than acquisition cost by the Prime Contractor or subcontractor).
- f. Donation to public bodies in lieu of abandonment.
- g. Abandonment or destruction.

This section includes:

1. Forms to be completed for submission of the final inventory.
2. Examples and instructions for the use of the forms.
3. Tables to be used in conjunction with the forms.

INVENTORY SCHEDULE CERTIFICATE											
The undersigned, personally and as representative of the Contractor, certifies that this Inventory Schedule consisting of page numbers ___ to ___ inclusive, dated _____ has been examined, and that in the exercise of the signer's best judgment and to the best of the signer's knowledge, based upon information believed by the signer to be reliable, said Schedule has been prepared in accordance with applicable instructions; that the inventory described is allocable to the designated contract and is located at the places specified; if the property reported is termination inventory, that the quantities are not in excess of the reasonable quantitative requirements of the terminated portion of the contract; that this						Schedule does not include any items reasonably usable, without loss to the Contractor, on its other work; and that the costs shown on this Schedule are in accordance with the Contractor's records and books of account.					
						The Contractor agrees to inform the Contracting Officer of any substantial change in the status of the inventory shown in this Schedule between the date hereof and the final disposition of such inventory.					
						Subject to any authorized prior disposition, title to the inventory listed in this Schedule is hereby tendered to the Government and is warranted to be free and clear of all liens and encumbrances.

Instructions for Preparing Standard Form 120

Item	Identification	Completion
1	Report No.	To be assigned by DOE/NETL.
2	Date Mailed	Enter date the report is mailed (not date on which prepared).
3	Total Cost	Enter the total of all amounts shown in Column 18(g) for all pages of the report.
4	Type of Report	Blocks a and f should be marked.
5	To	Leave blank.
6	Appropriation or Fund to be Reimbursed	Enter none.
7	From	Enter the name and address of the Federal Agency or department and bureau making the report.
8	Report Approved	Name and title of person authorized to approve the report.
9	For Further Information Contact	Enter title, address, and telephone number of the person who may be contacted.
10	Agency Approval	When responsibility for approval is vested in other than the reporting activity, the signature and title of the person authorized to approve shall be shown here.
11	Send P.O.'s or Disposal Instructions To	Enter title, address, and telephone number.
12	GSA Control No.	Not to be used by reporting activity.
13	FSC Group No.	Enter one of the codes listed in the chart on Pages 81-96.
14	Location of Property	Give the warehouse, building, or other specific location.
15	Reim/Required	Enter an (x) in No.
16	Agency Control No.	Not to be used by reporting activity.
17	Surplus Release Date	Not to be used by reporting activity.
18a	Item No.	Enter consecutive numbers for all line items beginning with "1." Enter only one item per page.

Instructions for Preparing Standard Form 120

Item	Identification	Completion
18b	Description	Describe each item in commercial terms and in sufficient detail to permit transfer or sale without further reference to holding agency.
18c	Condition	To obtain effective use, it is extremely important that the code designation entered in this column reflect the true condition of the property as of the date it is reported as excess. See Page 97 for disposal condition codes.
18d	Unit	Unit of measure.
18e	Number of Units	Quantity of each line item.
18f	Acquisition Cost Per Unit	Enter the recorded acquisition cost per unit. If acquisition cost is not known, enter the estimated cost per unit, excluding transportation and handling charges incurred after purchase. Identify an estimated cost by the prefix (E).
18g	Acquisition Cost Total	Computed total cost of each line item.
18h	Fair Value	Leave blank.

Report of Excess Real Property

Item	Identification	Completion
Standard Form 118: Report of Excess Real Property (Summary)		
1	Holding Agency Number	Leave blank.
2	Date of Report	Date completed.
3	GSA Office	Leave blank.
4	Holding Agency	Leave blank.
5	Representatives to be Contacted	Leave blank.
6	Name and Address of Custodian	Leave blank.
7	Property Identification	Give a brief description of the property.
8	Property Address	Full address of property location.
9	Space Data	For buildings only.
A	Office	Enter those buildings which predominantly consist of office space.
B	Storage	Enter those buildings which are used predominantly for storage.
C	Other (see 9F)	Enter those buildings which do not fall in either of the above categories.
(1)	Number of Buildings	Self explanatory.
(2)	Floor Area	Total floor area in square feet of reported buildings.
(3)	Number of Floors	Total number of floors of all buildings.
(4)	Floor Load Capacity	Pounds per square foot of floor load capacity.
(5)	Clear Headroom	Ceiling height in feet.
D	Total	Total number of buildings, Column (1) and total floor area, Column (2).
E	Government Interest	Indicate Government interest, either owned or leased.
F	Specify Other Use (9C and 10C)	Brief explanation of use of building, other than office or storage.
10	Land Data	For excess-owned or leased land only (from SF 118-B).

Instructions for Completing Standard Forms 118, 118-A, 118-B, 118-C

Report of Excess Real Property

Item	Identification	Completion
A	Fee	Total acres or square feet of owned land.
B	Leased	Total acres or square feet of leased land.
C	Other	Total acres or square feet, not owned or leased.
D	Total	Total of A, B, and C.
11	Cost to Government	Breakdown of total cost to the Government.
A	Buildings, Structures, Utilities, and Miscellaneous Facilities	Original cost including installation, betterment, and improvements. If the cost is not available, estimate. Total of Column (d) of SF 118-A.
B	Land	Total of Column (f) of SF 118-B.
C	Related Personal Property	Total of Column (h) of SF 118-C.
D	Total	Total of Items A, B, and C above.
E	Annual Protection and Maintenance Cost	Total cost to the Government of protecting and maintaining the property. Includes the cost of personnel and utilities.
12	Leasehold Data	Applicable when the Government's interest is that of a lessee.
A	Total Annual Rent	Total amount of rent paid to the lessor annually. This figure is equal to the sum of Block 3 on SF 118-A and the total of Column (8) on SF 118-B.
B	Annual Rent Per Square Foot or Acre	Indicate unit of measure used.
C	Expiration Date	Date lease expires.
D	Renewal Notice	Number of days required for renewal notice.
E	Termination Date	Date termination rights expire.
F	Annual Renewal Rent Per Square Foot or Acre	Self explanatory.

Instructions for Completing Standard Forms 118, 118-A, 118-B, 118-C

Report of Excess Real Property

Item	Identification	Completion
G	Termination Rights	Number of days within which the Government and lessor have to execute cancellation rights.
Note: If different rents apply to different buildings, parts of buildings, etc., compute average rent per square foot or acre for Items B and F. Use separate sheet, if necessary, when more than one lease is reported, to indicate data for Items C, D, E, and G above, with respect to each lease.		
13	Disposition of Proceeds	Leave blank.
14	Type of Construction	Give brief description of the construction of the buildings, structures, utilities, and miscellaneous facilities listed.
15	Holding Agency Use	Leave blank.
16	Range of Possible Uses	Leave blank.
17	Interested Parties	Specify names and addresses of any Governmental agencies or other parties interested in the excess property.
18	Remarks	Give any remarks to further describe the property, or any other data which may be relevant for disposition purposes.
19	Report Authorized by	Name of person completing forms.

Instructions for Completing Standard Forms 118, 118-A, 118-B, 118-C

Report of Excess Real Property

Item	Identification	Completion
Standard Form 118-A: Buildings, Structures, Utilities, and Miscellaneous Facilities		
1	Holding Agency Number	Leave blank.
2	Page	Self explanatory.
3	Annual Rental	Where the Government is a tenant, enter the actual rental cost to Government of the buildings, structures, utilities, and miscellaneous facilities.
(a)	Line	Self explanatory.
(b)	Holding Agency Number	Enter the number assigned to the building or structure.
(c)	Description	Describe the property indicating:
	1. Type of building or structure.	Storage, service, R&D, etc. Attach, where applicable, a general building layout plan.
	2. Type of construction.	Describe the type of construction (i.e., brick, steel, frame, etc.).
	3. Date of construction.	Date structure was completed.
	4. Remarks.	Provide any additional data useful in describing the structure.
(d)	Cost	Where the Government is the owner, enter the actual cost to the Government, if known. Estimate the cost, if not known. The total of this column shall be reported in Item A, Block 11, on SF 118.
(e)	Outside Dimensions	Enter the outside dimensions of the building or structure.
(f)	Floor Area	Enter separate gross floor area for each building or structure, in square feet. The total of this column shall be shown in Item D, Block 9 of SF 118.
(g)	Number of Floors	Indicate the number of floors in the building or structure, excluding the basement. If there is a basement, enter a "B" also.
(h)	Clear Headroom	Enter the ceiling height.

Instructions for Completing Standard Forms 118, 118-A, 118-B, 118-C

Report of Excess Real Property

Item	Identification	Completion
(i)	Floor Load Range	Enter if data is available.
(j)	Restrictions on Use or Transfer	Describe any known restrictions on the use or transfer of Government interests (zoning, legal or other restrictions).
Note: For Columns (f), (g), (h), and (i) prefix figures with symbols to denote type of space: (a) office; (b) storage, and (c) other.		

Instructions for Completing Standard Forms 118, 118-A, 118-B, 118-C

Report of Excess Real Property

Item	Identification	Completion
Standard Form 118-B: Land		
1	Holding Agency Number	Leave blank.
2	Page	Self explanatory.
3	Government Interest	Check the appropriate box to indicate the Government's interest in the land.
(a)	Line	Self explanatory.
(b)	Tract Number	Enter the tract number of the land under which the tract was acquired, if any.
(c)	Name of Former Owner or Lessor or Address	Self explanatory.
(d)	Tract Acquired	Total amount of land in which Government has an interest, in square feet or acres.
(e)	Acres or Square Feet	Total number of acres or square feet of excess land. The total of this column will be reported on Item B, Block 10, on SF 118.
(f)	Cost	Enter the total cost to the Government. The total of this column will be reported on Item B, Block 11, on SF 118.
(g)	Annual Rental Rate	Where the Government is a tenant, enter annual rental cost of excess land.
(h)	Type of Acquisition	Describe the method by which the land was acquired (i.e., lease, purchase, condemnation, etc.).
(i)	Restrictions	Describe any restrictions on the use or transfer of the right-of-way, roads, etc. Attach a report on the Government's legal title to the property.

Instructions for Completing Standard Forms 118, 118-A, 118-B, 118-C

Report of Excess Real Property

Item	Identification	Completion
Standard Form 118-C: Related Personal Property		
1	Holding Agency Number	Leave blank.
2	Page	Self explanatory.
3	SCC Group	Leave blank.
(a)	Item Number	Self explanatory.
(b)	Description	Describe the property in enough detail to furnish an adequate basis for utilization and disposal, including the manufacture's part number, catalogue number, etc.
(c)	Standard Commodity Class	Leave blank.
(d)	Condition	Indicate condition of property using Disposal Conditions Codes found in the tables on Page 97.
(e)	Unit	Indicate the unit of measure applicable to the item of property.
(f)	Number of Units	Specify number of units being listed.
(g)	Unit Cost	Insert the recorded procurement cost per unit. If not known, supply an accurate estimate.
(h)	Total Cost	Multiply number of units by the unit cost. The total of Column (h) shall be reported in Item C, Block 11, on SF 118.
(i)	Do Not Use This Space	Leave blank.

FEDERAL SUPPLY CLASSIFICATION GROUPS AND CLASSES

Note:

1. All FSC Groups are listed;
2. Only FSC Classes most common to DOE Contractor facilities are listed;
3. Final inventories require a 4-digit FSC class number. If a 4-digit class number is not available in this list, use the most accurate 2-digit group number.

Group	Class	Description
10		Weapons
11		Nuclear Ordnance
12		Fire Control Equipment
	1210	Fire Control Directors
	1230	Fire Control Systems, Complete
	1290	Miscellaneous Fire Control Equipment
13		Ammunition and Explosives
	1370	Pyrotechnics
	1375	Demolition Materials
14		Guided Missiles
15		Aircraft; and Airframe Structural Components
16		Aircraft Components and Accessories
17		Aircraft Launching, Landing, and Ground Handling Equipment
18		Space Vehicles
19		Ships, Small Craft, Pontoons, and Floating Docks
20		Ship and Marine Equipment
22		Railway Equipment

FEDERAL SUPPLY CLASSIFICATION

DISPOSAL CONDITION CODES

<u>DISPOSAL CONDITION CODE</u>	<u>BRIEF DEFINITION</u>	<u>EXPANDED DEFINITION</u>
1	Excellent	Property which is in new condition or unused condition and can be used immediately without modifications or repairs.
4	Usable	Property which shows some wear but can be used without significant repair.
7	Repairable	Property which is unusable in its current condition but can be economically repaired.
X	Salvage	Property which has value in excess of its basic material content, but repair or rehabilitation is impractical and/or uneconomical.
S	Scrap	Property which has no value except for its basic material content.

6. HIGH RISK PERSONAL PROPERTY INVENTORY

This report is required by the D.O.E. for the control (acquisition, management, and disposal) of high risk property to ensure that such disposition does not adversely affect public safety and/or the environment, national security, or nuclear nonproliferation objectives of the United States. Refer to Personal Property Letter, at "<http://www.oakridge.doe.gov/property/970-3>" for additional information.

Types of high risk property are as follows:

- a. Specially designed or prepared property.
- b. Export controlled property
- c. Export controlled information.
- d. Hazardous property
- e. Nuclear Weapon components
- f. Proliferation Sensitive property
- g. Radioactive property
- h. Unclassified controlled Nuclear Information.

HIGH RISK PERSONAL PROPERTY INVENTORY

In accordance with DOE Property Management Regulation, Subpart 109-1.53, I certify that, I do/do not have any high risk personal property in my possession, or in the possession of my subawardee in connection with this award.

Award No. _____

If you or your subawardee has high risk personal property, it is recommended that the property be reported using the following format:

EXAMPLE

I have the following high risk personal property at my facility or at my subawardee's facility:

Item No.	Description	Unit	Quantity	Location

(Signature)

(Date)

7. CAPITAL / SENSITIVE PROPERTY INVENTORY REPORTS

This report is required by the reporting requirements of the contract in accordance with FAR 45.508-2.

Dear _____:

SUBJECT: Capital Property Inventory; Contract No. _____

In accordance with the reporting requirements of the subject contract, the "Capital Inventory" was conducted on _____. The results of the inventory are as follows:

Total Items to be Inventoried: _____

Total Cost of Items to be Inventoried: \$_____

Total Items Found: _____

Total Cost of Items Found: \$_____

Total Number of Items Not Inventoried: _____

Total Cost of Items Not Inventoried: \$_____

Dear _____:

SUBJECT: Sensitive Property Inventory; Contract No. _____

In accordance with the reporting requirements of the subject contract, the "Sensitive Inventory" was conducted on _____. The results of the inventory are as follows:

Total Items to be Inventoried: _____

Total Cost of Items to be Inventoried: \$_____

Total Items Found: _____

Total Cost of Items Found: \$_____

Total Number of Items Not Inventoried: _____

Total Cost of Items Not Inventoried: \$_____

8. ANNUAL REPORTS OF PROPERTY IN THE CUSTODY OF CONTRACTORS

This section includes the NETL Form 580.1-8 and the instructions for completion of that form.

This report is to be completed by September 30th and submitted by October 15th of each year. The contractor shall not be notified in advance that this report is due.

This report includes **ALL** government owned, purchased and furnished property and materials. Instructions for the completion are found on the reverse side of the NETL Form 580.1-8.

ANNUAL REPORT OF PROPERTY IN THE CUSTODY OF CONTRACTORS

1. TO <i>(Enter name and address of property administrator)</i> ACQUISITION & ASSISTANCE DIVISION DOCUMENT CONTROL (M/S 921-143) US DEPARTMENT OF ENERGY FEDERAL ENERGY TECHNOLOGY CENTER PO BOX 10940 PITTSBURGH PA 15236-0940				2. FROM <i>(Enter full name and address of contractor)</i>

Enter the quantity for all categories of Government property except for Other Real Property and Material on hand at the beginning of the fiscal year. The amounts reported must agree with the amounts reported in the previous year for BALANCE AT END OF PERIOD.</p> <p>ITEMS 10 - 13.c. - ADDITIONS (<i>in dollars</i>). For the property categories indicated, enter the acquisition cost for the total additions to the contract from any source during the fiscal year. Do not enter for Government Material. NOTE: For Item 12, >\$25K, use attachment.</p> <p>ITEMS 10 - 13.d. - DELETIONS (<i>in dollars</i>). For property categories indicated, enter the acquisition cost for the total deletions from the contract during the fiscal year. Do not enter for Government Material. NOTE: For Items >\$25K, use attachment.</p> <p>ITEMS 10 - 15.e.(1) - ACQUISITION COST (BALANCE AT THE END OF THE FISCAL YEAR). Enter the acquisition cost for each type of property as defined in FAR 45.5.</p> <p>ITEMS 10, 12, 13.e.(2) - QUANTITY (BALANCE AT END OF FISCAL YEAR). Enter the quantity for all categories of Government Property except for Other Real Property and Material on hand at the end of the fiscal year. These will be carried forward to reflect the balance at the beginning of the following year.</p> <p>ITEM 16 - CONTRACTOR REPRESENTATIVE. Type the name of the contractor representative authorized by the property control system to sign this report. This will be the person certifying the report was prepared under DOE/FETC reporting requirements from records maintained by the contractor under FAR 45.5. Date and signature of person indicated in Item 16.a.</p> <p>ITEM 17 - DOE PROPERTY REPRESENTATIVE. Type the name of the DOE/FETC Property Administrator or other Authorized Property Representative, plus that individual's commercial area code and telephone number. Sign and date.</p> <p>NOTE TO CONTRACTOR: When reporting more than one contract from the same location and the same contractor, you may elect to fill out Data Elements 1, 3, 6, 7, and 16 only once as long as each form can be readily identified if any form.</p>

ANNUAL REPORT OF PROPERTY IN THE CUSTODY OF CONTRACTORS -- Continued

[illegible]

9. CONTRACTOR'S PROPERTY MANAGEMENT SYSTEM REPORTS

This report is required in accordance with FAR 45.104 and the Reporting Requirements of the award. The contractor shall submit this report within the first six months of the award. This system should include how all government owned property in their possession and with their subcontractors shall be controlled, protected , preserved, and maintained in accordance with FAR 45.5. (An example of a generic property management system may be found on the following five pages of this manual.)

SAMPLE "GENERIC SYSTEM"

GOVERNMENT PROPERTY CONTROL SYSTEM PROCEDURE (LIMITED)

The following procedures will be followed to meet the minimum requirement of the Federal Acquisition Regulations (FAR) Part 45 as invoked by the Government Property Clause of current Government contracts. In the event changes are required to be made to these procedures, they will be submitted to the Organization Property Management Officer, U.S. Department of Energy, National Energy Technology Laboratory, PO Box 10940, Pittsburgh PA 15236, for review prior to implementation. Where the contract requires additional or other procedures than that prescribed herein, the contract requirement shall prevail. The undersigned or similarly designated individual will be responsible for implementing these procedures.

I. ACQUISITION AND RECEIVING

- a. All items are to be procured on Purchase Order (PO). The PO will be used as the acquisition document, as well as the receiving document.
- b. Upon receipt of Government property, it will be checked against the PO and annotated to reflect the date and condition received.
- c. The property will then be issued for its intended purpose. Items not immediately consumed will be marked with Government identification.
- d. All completed PO's will be filed in contract files as a matter of record.

II. RECORDS

- a. The receipt and issue method of property control will be utilized for all acquisitions of property that is immediately consumed. The completed copy of the purchase order will be the record.
- b. Items considered non-consumable that are required for test purposes or to support production will be posted to the property records data base, to include the following information:
 - 1. Contract number.
 - 2. Nomenclature/description of the item (including manufacture, model number, part number, and or serial number).
 - 3. Quantity received and unit of measure.
 - 4. Quantity on-hand and issued.
 - 5. Unit price.
 - 6. Location.
 - 7. End item on which used.
 - 8. Posting reference and date of transaction.
 - 9. Disposition.

III. STORAGE AND IDENTIFICATION

- a. Government property will be segregated from contractor assets and clearly marked as to be identifiable as Government property, e.g., U.S. Government.
- b. Storage areas for Government property will be secured to limit access to only authorized personnel.
- c. Steps will be taken to protect items from harsh environment while in storage.

IV. UTILIZATION

Government property will be used only for the purposes outlined under the terms of the accountable contract, unless **specific written approval** for alternated uses is obtained from the **Contracting Officer**.

V. MOVEMENT

Movement of Government property from the contractors facility to any other location or return of Government property from an off-site location shall be recorded immediately in the property record data base.

VI. PHYSICAL INVENTORY

- a. Government-owned material and equipment will be inventoried at least once annually on the anniversary of the subject contract. The inventory will consist of sighting, tagging and reconciling the results of the records.
- b. The results of the inventory will be posted to the records and the assigned contract Property Administrator will receive written notification, Sensitive Property (Attachment d) and Capital Property (Attachment d) of the results.

VII. REPORTS

- a. If there are any damages, theft or loss of Government property, the assigned contract Property Administrator will be promptly notified and a written report in memorandum format containing all the factual data as to the circumstances surrounding the incident. Along with the report a NETL Form 4410.2 "Property Retirement Work Order Authorization" (Attachment d) will be sent.
- b. NETL Form 580.1-8, "Annual Report of Property in the Custody of Contractors" (Attachment d) will be submitted to the below address annually with period ending date of September 30 of each year.

- c. Any other report required by the contract terms and conditions.

Send reports to:

AAD DOCUMENT CONTROL
U.S. DEPARTMENT OF ENERGY
NATIONAL ENERGY TECHNOLOGY LABORATORY
P.O. BOX 10940
PITTSBURGH, PA 15236-0940

VIII. MAINTENANCE AND REPAIR

Government property will be properly cared for, maintained, used and provided the necessary maintenance to obtain a high quality of production and most useful life. A preventative maintenance schedule will be established in accordance with the manufacturer's recommendations.

IX. MOTOR VEHICLE MANAGEMENT (IF APPLICABLE)

Government-owned motor vehicles will be used for "OFFICIAL GOVERNMENT BUSINESS." No other use is authorized without written consent of the Contracting Officer.

X. SUBCONTRACTORS CONTROLS

Any subcontractor possessing or controlling Government property will be required to adequately care for and maintain the property and assure that it is used only as authorized in the contract.

XI. DISPOSITION

- a. Standard Form 120, "Report of Excess Personal Property" (Attachment d) shall be submitted to contract assigned Property Administrator or Contract Officer anytime Government property is determined to be "excess" or no longer needed during the contract.
- b. Standard Form 1428, "Inventory Schedule B" (Attachment d) along with Standard Form 120, "Report of Excess Personal Property" shall be submitted to contract assigned Property Administrator or Contract Officer upon completion of the contract for disposition instructions.

XII. CONTRACT COMPLETION

Upon completion of all work under the contract and disposition of all Government property, the contract assigned Property Administrator will be notified by letter and

furnished a NETL Form 580.1-7 Property Certificate (attached) or a 580.1-9 for Financial Assistance Awards (attached).

INVENTORY SCHEDULE

This inventory Schedule has been examined, and in the exercise of the signer's best judgment and to the best of the signer's knowledge, based upon information believed by the signer to be reliable, said Schedule has been prepared in accordance with applicable instructions; the inventory described is allocable to the designated contract and is located at the places specified; if the property reported is termination inventory, the quantities are not in excess of the reasonable quantitative requirements of the terminated portion of the contract; this Schedule does not include any items reasonably usable, without loss to the Contractor, on its other work; and the costs shown on this Schedule are in accordance with the Contractor's records and books of account.

The Contractor agrees to inform the Contracting Officer of any substantial change in the status of the inventory shown in this Schedule between the date hereof and the final disposition of such inventory.

Subject to any authorized prior disposition, title to the inventory listed in this Schedule is hereby tendered to the Government and is warranted to be free and clear of all liens and encumbrances.

NAME OF CONTRACTOR	BY <i>(Signature of Authorized Official)</i>	TITLE	DATE
NAME OF SUPERVISORY ACCOUNTING OFFICIAL		TITLE	

PROPERTY CERTIFICATE

1. Contractor	3. Contract No.
2. Address	
<p>4. Item I or II as applicable:</p> <p>I. There was no residual Government-owned property of any description remaining at the completion of this contract. Therefore, this constitutes a negative reply to the Government request for a final inventory of residual Government-owned property on the subject contract.</p> <div style="display: flex; justify-content: space-between; margin-top: 20px;"><div style="width: 60%; text-align: center;">_____ Signature and Title</div><div style="width: 35%; text-align: center;">_____ Date</div></div> <p>II. A final inventory of residual <u>GOVERNMENT-OWNED PROPERTY ONLY</u> is enclosed for the category <i>(or categories)</i> checked:</p> <div style="display: flex; justify-content: space-around; margin-top: 10px;"><div><input type="checkbox"/> Equipment</div><div><input type="checkbox"/> Materials and Supplies</div></div> <p>Except for the category (or categories) checked above, no other residual Government-owned property of any description remains on this contract, at its completion:</p> <div style="display: flex; justify-content: space-between; margin-top: 20px;"><div style="width: 60%; text-align: center;">_____ Signature and Title</div><div style="width: 35%; text-align: center;">_____ Date</div></div> <p>All Government-owned property (whether acquired with contract funds or Government furnished) is required to be disposed of at the completion of this contract. Since this agreement is in the process of being closed out, it is required that named contractor furnish an inventory of such residual Government-owned property in its possession relating to this contract. Items of equipment acquired with contract funds, title to which is vested in the Contractor, should <u>not</u> be included.</p> <p>The inventory should be in two (2) parts:</p> <ul style="list-style-type: none">(a) <u>Equipment</u> - Items having a value of \$5000 and having a life expectancy of two (2) or more years.(b) <u>Noncapital Equipment</u> - Minor equipment, materials and supplies, residuals from production, scrap, and other special materials (such as platinum), etc. <p>The inventory should show for each item the following:</p> <ul style="list-style-type: none">1. Complete description.2. Tag numbers for capital equipment.3. Unit cost.4. Condition and date acquired.5. Quantity or weights for other special materials. <p>Type and level of radioactive contamination should be provided on items reported, when appropriate, or a general statement included that none is contaminated.</p>
